### Description

Pourquoi encore une nouvelle méthode de guitare pour débutants? Il y en a finalement déjà assez dans chaque bon magasin de musique ou pas? Les auteurs de cette nouvelle méthode sont d'avis que quelque chose manquait malgré tout: Une méthode de guitare laissant à l'élève, depuis le début, tous les mondes musicaux ouverts, sans l'orienter prématurément vers une seule direction. Une méthode de guitare offrant au débutant précisément aussi une musique lui parlant le langage de tous les jours, et ce langage est la musique pop. Une méthode de guitare introduisant l'élève avec précaution à la musique classique, appelée musique "sérieuse" et offrant des exemples de musique choisis avec le plus grand soin. Une méthode de guitare introduisant aux notes de musique et au solfège de façon encore plus facile et mieux compréhensible. Une méthode de guitare complétée par un cédérom, n'aidant pas uniquement travailler mais procurant également du plaisir. Une méthode de guitare transmettant au débutant une technique de jeu qui lui sera profitable plus tard, peu importe le style qu'il choisira. Avec ce livre, c'est une telle méthode de guitare que les auteurs ont développée.
